 - (2) During the period set forth in subsection (d)(1) the secondhand article shall be separate from saleable inventory and may not be altered in any manner. The pawnbroker shall permit any law enforcement officer to inspect the secondhand article during this period. Within 24 hours after a request of a law enforcement officer during this period, a pawnbroker shall make available for inspection any secondhand article, which is kept off the premises for safekeeping.
 - (3) Subsections (d)(1) and (2) do not apply to a secondhand article being consigned to a pawnbroker.

- (e) *Redemption period.* Any person pledging, pawning or depositing any item for security must have a minimum of 60 days from the date of that transaction to redeem the item before it may be forfeited and sold. During the 60-day holding period, items may not be removed from the licensed location. Pawnbrokers are prohibited from redeeming any item to anyone other than the person to whom the receipt was issued, to any person identified in a written and notarized authorization to redeem the property identified in the receipt or to a person identified in writing by the pledger at the time of the initial transaction and signed by the pledger, or with the approval of the police department. Written authorization for the release of property to persons other than the original owner must be maintained along with the transaction record in accordance with subsection (c)(10).
- (f) *Police order to hold property.*
- (1) *Investigative hold.* Whenever a law enforcement officer from any agency notifies a pawnbroker not to sell an item, the item must not be sold or removed from the premises. The investigative hold shall be confirmed in writing by the originating agency within 72 hours and will remain in effect for 15 days from the date of initial notification, or until the investigative order is canceled, or until an order to confiscate is issued, pursuant to subsection (2), whichever comes first.
- (2) *Order to confiscate:*
- a. If an item is identified as stolen or evidence in a criminal case, the police department may physically confiscate and remove it from the pawnshop, pursuant to a written order from the police department.
- b. When an item is confiscated, the person doing so shall provide identification upon the request of the pawnbroker and shall provide the pawnbroker with the name and phone number of the confiscating officer and the case number related to the confiscation.
- c. When an order to confiscate is no longer necessary, the police department shall so notify the pawnbroker.
- (g) *Daily report to police.*
- (1) Pawnbrokers must submit every reportable transaction to the police department daily in the following manner. Pawnbrokers must provide to the police department all information required in subsection (c), and other required information, by transferring it from their computer to the designated pawn tracking system. All required records must be transmitted completely and accurately after the close of business each day in accordance with standards and procedures established by the police department using procedures that address security concerns of the pawnbroker and police department. The pawnbroker must display a sign of sufficient size in a

conspicuous place on the premises, which informs all patrons that all transactions are reported daily to the police department and designated pawn tracking system.

- (2) Billable transaction fees. Pawnbrokers will be charged for each billable transaction reported to the police department. These fees are intended to pay for the cost of participation in a designated pawn tracking system.
 - (3) If a pawnbroker is unable to successfully transfer the required reports by modem, the pawnbroker must provide the police department with printed copies of all reportable transactions by 12:00 noon the next business day.
 - (4) If the problem is determined to be in the pawnbroker's system and is not corrected by the close of the first business following the failure, the pawnbroker must provide the required reports as detailed in subsection (3), shall be charged a daily reporting failure fee as established by the common council, from time to time, and as indicated on the schedule of licensing and fees appearing in Chapter 16 of this Code until the error is corrected, or, if the problem is determined to be outside the pawnbroker's system, the pawnbroker must then provide the required reports in subsection (3), and resubmit all such transactions via modem when the error is corrected.
 - (5) If a pawnbroker is unable to capture, digitize or transmit the photographs required in subsection (c), the pawnbroker must immediately take all required photographs with a still camera, cross- reference the photographs to the correct transaction, and make the pictures available to the police department upon request.
 - (6) Regardless of the cause or origin of the technical problems that prevented the pawnbroker from uploading the reportable transactions, upon correction of the problem, the pawnbroker shall upload every reportable transaction from every business day the problem has existed.
 - (7) The provisions of this section notwithstanding, the police department may, upon presentation of extenuating circumstances, delay the implementation of the daily reporting penalty.
 - (8) This section shall not apply to businesses that did not have 200 reportable transactions in the past calendar year, however, any such pawnbroker must follow daily reporting procedure for each reportable transaction by submitting a written transaction form approved by the police department to the department on the business day following the date of the reportable transaction.
- (h) *Exception for customer return or exchange.* Nothing in this section applies to the return or exchange from a customer to a pawnbroker of any secondhand article purchased from the pawnbroker.

Sec. 8-87. Receipt required.

Every pawnbroker must provide a receipt to the party identified in every reportable transaction and must maintain a duplicate of that receipt for three years. The receipt must include at least the following information:

- (1) The name, address, and telephone number of the licensed business.
- (2) The date and time the item was received by the pawnbroker.
- (3) Whether the item was pawned or sold, or the nature of the transaction.
- (4) An accurate description of each item received, including, but not limited to, any trademark, identification number, serial number, model number, brand name, or other identifying marks on such an item.
- (5) The signature or unique identifier of the pawnbroker or employee that conducted the transaction.
- (6) The amount advanced or paid.
- (7) The monthly and annual interest rates, including all pawn fees and charges.
- (8) The last regular day of business by which the item must be redeemed by the pledger without risk that the item will be sold, and the amount necessary to redeem the pawned item on that date.
- (9) The full name, residence address, residence telephone number, and date of birth of the pledger or seller.
- (10) The identification number and state of issue from any of the following forms of identification of the seller:
 - a. Current, valid Wisconsin driver's license;
 - b. Current, valid Wisconsin identification card;
 - c. Current, valid photo identification card or photo driver's license issued by another state or province of Canada;
 - d. Current, valid Armed Services identification card.
- (11) Description of the pledger or seller, including approximate sex, height, weight, race, color of eyes and color of hair.
- (12) The signature of the pledger or seller.

Sec. 8-88. Label required.

Pawnbrokers must attach a label to every item at the time it is pawned, purchased or received in inventory from any reportable transaction. Permanently recorded on this label must be the number or name that identifies the transaction in the pawnshop's records, the transaction date, the name of the item and the description or the model and serial number of the items as reported to the police department, whichever is applicable, and the date the item is out of pawn or can be sold, if applicable. Labels shall not be reused.

Sec. 8-89. Prohibited acts.

- (a) No person under the age of 18 years may pawn or sell or attempt to pawn or sell goods with any pawnbroker nor may any pawnbroker receive any goods from a person under the age of 18 years.
- (b) No pawnbroker may receive any goods from a person of unsound mind or an intoxicated person.
- (c) No pawnbroker may receive any goods unless the seller presents identification in the form of a valid driver's license, a valid state of Wisconsin identification card, or current valid photo driver's license or identification card issued by the state of residency or province of Canada or a current, valid Armed Services identification card from whom the item was received.
- (d) No pawnbroker may receive any item of property that possesses an altered or obliterated serial number or other identification number, or any item of property that has had its serial number removed.
- (e) No person may pawn, pledge, sell, consign, leave or deposit any article of property not their own, nor shall any person pawn, pledge, sell, consign, leave or deposit the property of another, whether with permission or without, nor shall any person pawn, pledge, sell, consign, leave or deposit any article of property in which another has a security interest with any pawnbroker.
- (f) No person seeking to pawn, pledge, sell, consign, leave or deposit any article of property with any pawnbroker shall give a false or fictitious name, nor give a false date of birth, nor give a false, out-of-date address of residence or telephone number, nor present a false or altered identification or the identification of another to any pawnbroker.

Sec. 8-90. License denial, suspension or revocation.

- (a) The common council may deny, suspend or revoke any license issued by it under this section for fraud, misrepresentation, or false statement contained in the application for a license, or for any violation of this chapter or Wis. Stats. §§ 134.71, 943.34, 948.62 or 948.63, or for any other violation of local, state or federal law substantially related to the business licensed under this chapter.
- (b) The common council may deny, suspend or revoke any license issued by it under this section if the applicant is not a citizen of the United States or a resident alien, or upon whom it is impractical or impossible to conduct a background or financial investigation due to the unavailability of information.
- (c) The common council may revoke or refuse to reissue a license for any reason stated in Wis. Stats. §134.71(10) or for failure of the licensed premises to pay in a timely manner City fees, charges, personal property taxes or assessments as required by City code.

Sec. 8-91 Fees.

- (a) The annual license fee under this chapter, as established by the common council, from time to time, and as indicated on the schedule of licensing and fees appearing in Chapter 16 of this Code. The fee shall not be pro-rated, and is non-refundable.
- (b) A billable transaction fee, as established by the common council, from time to time, and as indicated on the schedule of licensing and fees appearing in Chapter 16 of this Code, shall be charged for each billable transaction and fees shall be billed to each pawnbroker monthly and are due and payable within 30 days of the billing date. Failure to pay within that time period is a violation of this chapter.
- (c) The pawn tracking system will bill the police department on a monthly basis for each billable transaction it receives from a local pawnbroker (per 8-91(b)). The city shall pay half to the pawn tracking system per billable transaction. The city shall retain half for each billable transaction, which will be used to offset administrative costs of the police department.

Sec. 8-92. Penalty.

Any person who is convicted of violating any of the provisions of this chapter shall forfeit not less than \$5.00 or more than \$2,000.00, plus the cost of prosecution and in default of such payment, shall be imprisoned in the county jail until such forfeiture and costs are paid, but not exceeding 90 days. Each day of violation shall constitute a separate offense.

Section 2 Severability. In the event any section, subsection, clause, phrase or portion of this ordinance is for any reason held illegal, invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision, and such holding shall not affect the validity of the remainder of this ordinance. It is the legislative intent of the Common Council that this ordinance would have been adopted if such illegal provision had not been included or any illegal application had not been made.

Bill,

Attached is the information for the Railroad Quiet Zone item on the Health & Safety agenda.

Establishing a Railroad Quiet Zone

The City's Health & Safety Committee has been investigating the feasibility of establishing a railroad "Quiet Zone" within the city limits. Merrill does not have a straight rail line through the city, Merrill has a main line rail that enters the city limits on the east from the southeast along the Wisconsin River. The line parallels the Wisconsin River going west until turning north near Cleveland St., continues north to 8th St. where it swings northeast, crosses Pier St. and leaves the city limits. This exposes the majority of the city to train horns as trains swing around and through the city.

There are 13 rail crossings in the City - 8 public, 5 private.

Merrill Wastewater Treatment Plant - Private

Merrill Sand & Gravel - Private

Between Dereg & Curran off Sturdevant St. - Private

End of Cooper St. at Logan Ave - Private

Keyes St. - Public

Nast St. - Private

Park St. - Public

1st St. west of Pier St. - Public

2nd St. west of Douglas St. - Public

3rd St. west of Douglas St. - Public

5th St. west of Douglas St. - Public

6th St. west of Douglas St. - Public

Pier St. - Public

Federal regulations are clear about when and where train horns must be sounded and silencing train horns within city limits is a costly proposition. Railroads are required to follow regulations put in place by the Federal Railroad Administration and Congress in 2005, and money has not been available to make necessary safety improvements at rail crossings that would allow cities to silence train horns within city limits. Cities looking to create "Quiet Zones" within their boundaries must fund the necessary railroad crossing safety devices on their own, railroads are not required to upgrade crossings to allow for Quiet Zones.

Under the Train Rule (49 CFR Part 222), locomotive engineers must begin to sound train horns at least 15 seconds, and no more than 20 seconds, in advance of all public grade crossings. There is a "good faith" exception for locations where engineers cannot precisely estimate their arrival at a crossing and begin to sound their horn no more than 25 seconds before arriving at the crossing.

Train horns must be sounded in a standardized pattern of 2 long, 1 short and 1 long blast. The pattern must be repeated or prolonged until the lead locomotive occupies the grade crossing. The rule does not stipulate the durations of long and short blasts. The maximum volume level for train horns is 110 decibels, the minimum sound level is 96 decibels.

An opportunity exists for municipalities nationwide to mitigate the effects of train horn noise by establishing “new quiet zones.” In Quiet Zones, railroads have been directed to cease the routine sounding of train horns. Municipalities desiring to establish a Quiet Zone are first required to mitigate the increased risk caused by the absence of a train horn at public crossings.

Creating a New Quiet Zone Using Supplemental Safety Measures (SSMs)

Under FRA regulations, a municipality wishing to implement a quiet zone must meet these conditions:

- Define the group of crossings to be included in the Quiet Zone. The crossings must be adjacent, and at least a ½ mile segment of railroad must be included.
- Improve all crossing within a requested Quiet Zone to meet specific baseline criteria, including flashing lights and gates; power out indicators; constant warning time circuitry; and audible warning for pedestrians for all public crossings. Any necessary upgrades must be completed before calculating risk for the Quiet Zone.
- If any private crossings allow access to the public or provide access to active industrial or commercial sites, the municipality must conduct a diagnostic team review of those crossings. Following the diagnostic review, the municipality must comply with the diagnostic team’s recommendations concerning those crossings (may require additional SSM installation at municipal expense).
- Update the USDOT Grade Crossing Inventory Form to reflect conditions at each public and private crossing; this update should be complete accurate and dated within 6 months prior to the Quiet Zone implementation.
 - a. The FRA has defined a group of improvements that can be used to improve the Risk Index called Supplemental Safety Measures (SSMs). SSMs include four-quadrant gate systems, medians or channelization devices, one way streets with gates and permanent crossing closures. If these are used to reach the Risk Index with train horns, the application can be submitted and the Quiet Zone can be established, assuming ERA approval.
 - b. If the municipality does not wish to use SSMs, Alternative Safety Measures (ASMs) are available, which also improve the Risk Index. ASMs include geometric improvements, programmed enforcement, photo enforcement, education, etc. A municipality can also propose modified SSMs to help improve the Risk Index. If ASMs or modified SSMs are specified in the Quiet Zone application, any resulting approval will be conditional. A Quiet Zone resulting from this process will be subject to annual review.
 - c. There is currently no federal funding for Quiet Zone improvements, so municipalities must pay for all costs incurred in obtaining a Quiet Zone. Costs for Quiet Zone improvements can vary widely depending on the measures used and existing conditions at the crossings. Typical improvements can cost between \$250,000 and \$500,000 per crossing.

- Utilizing the FRA’s Quiet Zone Calculator, a web-based tool that can be found at <http://safetydata.fra.dot.gov/quiet/>, determine whether the Quiet Zone Risk Index (QZRI) of the proposed Quiet Zone is less than or equal to the Nationwide Significant Risk Threshold (NSRT). If the QZRI is less than or equal to the NSRT, the municipality can establish the Quiet Zone through public authority designation by completing the following steps.
 - a. Install required signage at each crossing (Refer to rule sections 222.25 and 222.35 for details).
 - b. Notify the parties listed in the rule (refer to rule section 222.43 for details).

Note: Quiet Zones established by comparison to the NSRT are subject to annual FRA review (Refer to rule section 222.51 for details).

Note: Periodic updates, including updated USDOT Grade Crossing Inventory Forms, must be submitted to the FRA every 2.5 - 3 years. (refer to rule section 222.47 for details).

- The step described above involves qualifying a Quiet Zone without implementing any additional SSMs or ASMs. If the FRA’s Quiet Zone Calculator indicates that the proposed Quiet Zone will not qualify on that basis, install any measures that are needed. To qualify for Public Authority Designation, the municipality must implement SSMs, build grade separations, close crossings or install wayside horns.

Note: In order to implement any ASMs, their use must be approved in advance by the FRA.

- If every public crossing in the proposed Quiet Zone is equipped with one or more SSMs, the municipality can establish the Quiet Zone through public authority designation by completing the following steps:
 - a. Install required signage at each crossing (Refer to rule sections 222.25 and 222.35 for details).
 - b. Update the National Grade Crossing Inventory to reflect current conditions at each public and private crossing within the Quiet Zone.
 - c. Notify the parties listed in the rule (refer to rule section 222.43 for details).

Note: Periodic updates, including updated USDOT Grade Crossing Inventory Forms, must be submitted to the FRA every 4.5 - 5 years. (refer to rule section 222.47 for details).

- If every public crossing is not equipped with an SSM, utilize the FRA’s Quiet Zone Calculator to determine whether enough SSMs have been implemented to reduce the QZRI to the level of risk that would exist if the train horns were still sounded (RIWH). If the QZRI is less than or equal to the RIWH, the municipality can establish the Quiet Zone through public authority designation by completing the following steps:

- a. Install required signage at each crossing (Refer to rule sections 222.25 and 222.35 for details).
- b. Update the National Grade Crossing Inventory to reflect current conditions at each public and private crossing within the Quiet Zone.
- c. Notify the parties listed in the rule (refer to rule section 222.43 for details).

Note: Periodic updates, including updated USDOT Grade Crossing Inventory Forms, must be submitted to the FRA every 2.5 - 3 years. (refer to rule section 222.47 for details).

- Use the FRA's Quiet Zone Calculator to determine whether enough SSMs have been implemented to reduce the QZRI to the Nationwide Significant Risk Threshold (NSRT). If the QZRI is less than or equal to the current NSRT, the municipality can establish the Quiet Zone through public authority designation by completing the following steps:
 - a. Install required signage at each crossing (Refer to rule sections 222.25 and 222.35 for details).
 - b. Update the National Grade Crossing Inventory to reflect current conditions at each public and private crossing within the Quiet Zone.
 - c. Notify the parties listed in the rule (refer to rule section 222.43 for details).

Note: Quiet Zones established by comparison to the NSRT are subject to annual FRA review (Refer to rule section 222.51 for details).

Note: Periodic updates, including updated USDOT Grade Crossing Inventory Forms, must be submitted to the FRA every 2.5 - 3 years. (refer to rule section 222.47 for details).

- The FRA reserves the right to remove the Quiet Zone if safety conditions deteriorate after installation. (The City of Superior has established multiple Quiet Zones in the past and has experienced Quiet Zones being revoked by the FRA.)

In 2013, the City of Superior received estimates to improve 62 crossings to establish new Quiet Zones. These estimates ranged from a low of \$310,000 to a high of \$460,000 per crossing. Guidelines from the Wisconsin Office of the Commissioner of Railroads states that "Railroad crossing signals with gates usually cost at least \$180,000 and can be substantially more than that depending upon conditions." That minimum is the equipment only and does not take into account any other costs.

In order for Merrill to implement a Quiet Zone we would have to deal with three public crossings (5th St., Park St. and Keyes St.) that have no SSMs in place and a minimum of three private crossings (Nast St., Merrill Sand & Gravel, and Merrill WWTP) that would be subject to diagnostic team review and mandatory upgrades based on that review. The questions to be answered is

how much is the City of Merrill willing to expend to attempt to implement a Quiet Zone, where does this project fall on the priority list of capital projects, and should the City make the investment in SSMs in the hope of having a Quiet Zone approved.

As much as I would like to have the train horns silenced, I cannot recommend the necessary commitment of time, manpower and funds required for this project without the certainty of success in obtaining the desired Quiet Zone.
