## Success on Merrill's Strategic Plan Implementation

Success in achieving Merrill's Strategic Goals are dependent on:

- All involved in our community must be willing to be cooperative, communicative and collaborative.
- The plan and its goals must be constantly reviewed by the community and the Common Council.
- City government must take a strong leadership role in defining roles and responsibilities with specific tasks.
  - 1) Create an ad hoc Strategic Plan Committee consisting of City officials and citizen members to provide oversight and monitoring of the progress of the strategic plan.
- Throughout the year, progress on the goals must be reported out and there should be yearly summaries provided to the community and Common Council.
  - 1) A specific point person, ie committee chairperson, must be given a specific timeline to report to the Common Council at least on a quarterly basis.
  - 2) The report can be put on the Council agenda on a rotational basis with all assigned goals.
- Each goal should have an assigned administrative or Common Council member along with a community member to assist in providing input and collaboration with Merrill citizens at large to maintain a regular flow of information to the community and Common Council.
